# Vita

Randall R. Correll was born in Danville, Illinois on March 26, 1958. After graduating from Danville High School in 1976, he entered the University of Illinois, receiving a B.S. in Engineering Physics in May, 1981. He was commissioned an Air Force officer after completion of Officer's Training School in August, 1981 and began his first assignment as an undergraduated student at the Air Force Institute of Technology at Wright-Patterson Air Force Base, Ohio. There he received a B.S. in Astronautical Engineering in March, 1983. His following assignment was to Vandenberg Air Force Base, California, supervising processing of space vehicles for launch on Atlas boosters. Captain Correll returned to the Air Force Institute of Technology in June, 1986 and completed a M.S. in Engineering Physics in December, 1987. Afterwards he was assigned to Patrick Air Force Base, Florida, as Chief of Space Research and Development to support nuclear test ban treaty verification. He entered the graduate physics program at the University of Texas in August 1992. Major Correll is currently assigned as a Science and Technology Planner at Headquarters Air Force Space Command in Colorado Springs CO
